Township. On last Thursday morning two of Morgan's men were brought to Lancaster by several citizens of Hocking county and lodged in jail. They were in citizens dress and had been hiding among the hills between this and the Ohio River, and making their way towards Columbus, where, as one of them astated, they had numerous friends, and from which point they could readi

ly escape. They were taken by citizens of Hocking county, who deserve much credit for their pursuit and cap-ture. One of them called at the house of a farmer for comething to eat, and was hiuch credit for their pursuit and capat once suspected of being one of Morgan's men. After the man left, the farmer took down his rifle, gathered several neighbors-together, and tracked the man, who had iron heels upon two men, whom they followed into there arrested them.

After arriving here they denied stoutly belonging to Morgan's force, giving steamer Escort arrived with Newbern a plausible account of themselves. But dates to August 1. The Raleigh (N. Tim psculiar taint or infection which we call Schoruza luris in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitinted atmo of the blood, wherein

that Suid becomes infine competent to smatch
apparent by yiel forces in their
vigorous action, and
leaves the system to
full into disorder and
decay. The scrofulous
contamination is variously caused by mercurial
disease, low living, disordered digestion from
unhealthy food, impure air, fifth and filthy
habits, the depressing vices and above all, by unhealthy food, impure air, fith and fifthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third sunfourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lunes, Servicia produces take various adjustices and facility lungs, Scrofala produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which pro-duce indigestion, dyspepsis, and liver com-plaints; on the skin, emptive and cutaneous affections. These all having the same origin. require the same remedy, viz purification and invigoration of the blood. Purify the blood, and these dangerous distempera leare you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the fleih" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect apon this class of complaints, is indeputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Ery sipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the who series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Arth's Americas Almanac, which is furnished to the druggists for gratuitous distribution, wherein may blearned the directions for its use, and some o the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies and thus leaves its victims for more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does

greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayen's Sarsaparitla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Parge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-tions, and thus expels the distempers which lark within the system or burst out on any

part of it.

We know the public have been deceived by many compounds of Senseparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
